

Last information update: February 2025

**Accessory code**  
BE38: 90° profile

**Technical description**

Pre-assembled 90° corner profile for low voltage track in Minimal version (trimless flush with ceiling). This simplifies corner connections between consecutive tracks without having to cut them on site.

**Colour**  
White (01) | Black (04)

**Weight (Kg)**  
0.09

**Wiring**

To electrify the corner used the L-shaped joint code no. MZ41. To create square or closed four-sided configurations use MZ41 code joints - 1 less than the number of corners - plus a header code no. MZ39 for the power connection. Always consult the instruction sheet.

Complies with EN60598-1 and pertinent regulations
