**Product code**  
PT50: Minimal recessed LV FILORAIL 48V (16A) track L=3000

**Technical description**  
48V (16A) low voltage track for Minimal recessed installations (with no frame). Designed to house dedicated lighting elements fitted with a specific 48V adapter. Made of painted extruded aluminium, it includes a series of assembly plates designed to allow profiles to be installed in false ceilings with different thicknesses. The integrated circuit, designed to interact with the DC/DC driver included in the adapters or products, allows the lighting elements inserted in the track to be programmed individually. To obtain continuous lines, direct and corner joints are available with separate codes. A sealing sheath is included that is positioned flush with the track opening to guarantee a clean cut and protection from scrap/dust.

**Installation**  
Ceiling or wall-recessed. For the height of the false ceilings, see the instruction sheet.

<b>Colour</b>	<b>Weight (Kg)</b>
White (01)	1.9

**Mounting**  
Low voltage track

**Wiring**  
A remote power supply is available with separate code. For maximum load details and cabling procedures see the instruction sheet.

Complies with EN60598-1 and pertinent regulations
