### Product configuration: MD95

MD95: recessed luminaire Ø 137 - warm white passive dissipation integrated electronic control gear - flood

# Product code

MD95: recessed luminaire Ø 137 - warm white passive dissipation integrated electronic control gear - flood Attention! Code no longer in production

### Technical description

recessed adjustable removable luminaire for LED lamp with passive heat dissipation system. Structure with die-cast aluminium frame and main body; shaped surface with high level radiant effect for effectively reducing the temperature and keeping the long-term LED lamp performance unchanged. Steel rotation hinge, chrome-plated aluminium body closing ring. Reflector with high efficiency super-pure aluminium optic - flood beam angle. Body adjusted using manually operated device: internal 45° - external 75° - rotation about axis 355°. Supplied with electronic control gear connected to the luminaire. Warm white high efficiency LED

### Installation

recessed using special steel springs in false ceilings with thicknesses starting at 1 mm; preparation hole Ø 125
