Technical description

iGuzzini

Last information update: March 2025

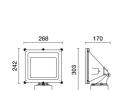

## Product configuration: PX71.01

screws used are made of A2 stainless steel.

PX71.01: Floodlight with base - Warm White - Integrated power supply - DALI-2 - 42W 4410Im - 2200K - White

PX71.01: Floodlight with base - Warm White - Integrated power supply - DALI-2 - 42W 4410Im - 2200K - White

Floodlight designed to use LED lamps and an ST1 optic. Consisting of an optical assembly, an arm with a swivel joint and a glassholding frame and base in aluminium alloy, subjected to a multi-step, pre-treatment process, in which the main phases are degreasing, fluorozirconation and sealing. The following painting stage consists of a primer and a liquid acrylic paint, cured at 150°C, with a high level of weather and UV ray resistance. Transparent, 4mm thick, tempered sodium-calcium closing glass. The gasket is in black silicone. The product includes a Warm White monochrome circuit with a Black Optismart Lens optical system. The electronic DALI-2 power supply is integrated in the product and compatible with remote management systems. The frame includes steel retaining cables. The product with a base can be adjusted on a vertical plane by ±45° and on a horizontal plane by 360°. All external

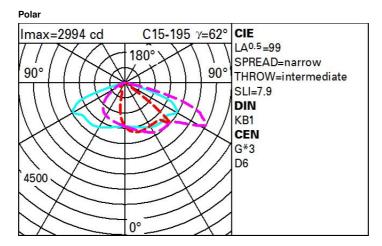

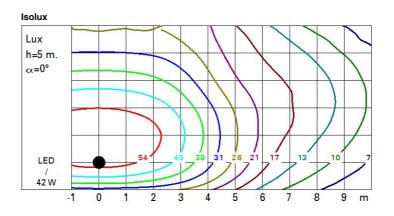

The product can be floor, wall or ceiling-installed and also pole-mounted using steel arms or a steel flange.
