Product code

RL28: accessory cover with framer projector - mechanical inclination lock

Technical description

Miniaturised round swivel luminaire complete with LED profiler projector in neutral colour tone 4000K. Version compatible with Blade R diam 170mm (18LED) complete with device for coupling it to the luminaire and DALI control gear. Die-cast aluminium technical body for LED lamp - an external pin that is activated manually allows the inclination of the luminaire to be locked and guarantee stability and high precision aiming - high definition OptiBeam reflector. The aluminium optical assembly includes a sophisticated telecentric optics system consisting of four anti-reflection-treated glass lenses. Black anodised aluminium locknut for manual focusing. The innovative optical system, combined with the option of manual adjustment and four shaping flaps, allows precise, well-defined wall lighting with no halo effects or soft edges. The optical assembly is fixed to the technical body with a rapid and practical magnetic system. This solution allows it to be rotated by 360° which increases its versatility considerably. The spotlight is designed to obtain a square, rectangular or variously irregular beam by manoeuvring the flaps. The package includes two gobos for circular shapes.

Installation

accessory with miniaturised swivel profiler projector for Blade R diam 170mm (18LED)

Colour

White (01) | Black (04)

Weight (Kg)

0.61

Notes

Equipped with a mechanical inclination lock operated manually

Complies with EN60598-1 and pertinent regulations
