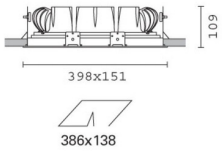
Last information update: May 2024

Product configuration: MF22
MF22: rectangular recessed luminaire with 3 optical assemblies - warm white passive dissipation LEDs - integrated electronic control gear - medium

Product code
MF22: rectangular recessed luminaire with 3 optical assemblies - warm white passive dissipation LEDs - integrated electronic control gear - medium **Attention! Code no longer in production**

Technical description
Multiple recessed adjustable removable luminaire for LED lamp with passive heat dissipation system. Sheet steel perimeter frame. Main structure made of die-cast aluminium. Steel rotation hinges. Die-cast aluminium lamp bodies with shaped surface for high level radiant effect for effectively reducing the temperature and keeping the long-term LED lamp performance unchanged. Chrome-plated aluminium lamp body closing rings. Reflectors with high efficiency super-pure aluminium optic - medium beam angle. Bodies adjusted using manually operated device: internal 29° - external 75° - rotation about axis 355°. During adjustment and rotation the lamp bodies are subject to some limitations. Consult the instruction sheet. Supplied with electronic control gear units connected to the luminaire. Warm white high efficiency LED.

Installation
recessed: preparation slot 138 x 386 mm; perimeter frame preliminary fixing on false ceiling (min. thickness 1 mm) with adjustable metal brackets; main structure inserted and mechanically locked on the frame



Colour
White / Aluminium (39) | Grey / Black / Aluminium (E1)

Mounting
ceiling recessed

Wiring
on control gear box with quick-coupling connections; each lamp body has a specific ballast, allowing separate switch ons

Notes
the configuration of the lamp bodies causes some limitations during angling and rotation; consult the instruction leaflet

Complies with EN60598-1 and pertinent regulations

IP20 pending

Technical data
